

14th ILAIS Conference

June 29, 2020 @ Ramat-Gan Academic College

Call for Papers

The Israel Association for Information Systems (ILAIS) was founded in 2005 as the Israeli chapter of the Association for Information Systems (AIS). The goal of ILAIS is to promote the exchange of ideas, experiences and knowledge among IS scholars and professionals engaged in IS development, management and use.

The 14th annual ILAIS conference will be held on June 29, 2020 at Ramat-Gan Academic College. The Program Committee invites faculty members, research students, and industry researchers in the IS field to submit an extended abstract for the following tracks:

- Completed Research Paper (Conference Presentation).
- Research-in-Progress Paper (Conference Presentation).
- Early Stage Thesis.

Each abstract should include: title, author(s) (also advisors(s) – if thesis), introduction, objectives, method, results (if available), and conclusions (if available).

The structure of theoretical/ conceptual/practical papers can be adjusted as needed.

Please note: Authors of all papers retain all copyrights and will be asked to agree to publish their abstracts online as conference proceedings. This arrangement allows publishing the complete version elsewhere (including journals, conferences and books).

Although all topics within the IS research domain are welcome, this year we are especially interested in Data Science and Big Data, Economics of IS and IS Governance, Social Media, Leveraging Innovative Technologies, Human-Computer Interaction (HCI), Cyber Security, IS Education. Additionally, in order to broaden the ILAIS audience, researchers in domains intersecting Software Engineering and Information Systems are more than welcome to participate.
